

【New Line UP】

Small Capacity Steam Turbine for Generator

● SNM has installed over 6,500 units in more than 80 countries worldwide. As the demand for smaller steam turbines has been steadily increasing, we are please to introduce a new model to satisfy customer.

This new model focus on small capacity range with and emphasis on increased efficiency and lower cost compared to existing models.

COMPACT

**30% smaller
footprint!**

LOWER PRICE

**20% price
reduction!**

PERFORMANCE

**3% efficiency
gain!**

◆ The turbine frame size is smaller than current turbine model, which equates to a smaller baseplate, thus significant reduction of construction costs. ※

◆ Since the turbine size has become compact, we have reduced the turbine material cost. ※

◆ By focusing in the small output power range, the performance has improved compared to the current model. ※

※ Compared to current SNM Turbine

 **SHIN NIPPON MACHINERY CO., LTD.**

~ SNM always close to customer ~

All turbines are the highest quality custom built to exact customer specifications.
