

## Joined Clean Admission to Clean Fuel Ammonia Association(CFAA)

Shin Nippon Machinery Co., Ltd. has joined the Clean Fuel Ammonia Association (CFAA), an association that aims to establish a value chain from supply to utilization of CO<sub>2</sub>-free ammonia, and conducts technology development/evaluation, economic evaluation, policy recommendation, and international collaboration.

CFAA is working to build a value chain for fuel ammonia from supply to utilization.

Shin Nippon Machinery Co., Ltd. as a company with a large number of deliveries to ammonia plants, have decided to join the association in order to play a role in this endeavor.

Shin Nippon Machinery Co., Ltd. will continue to contribute to the realization of a low-carbon society by leveraging its high technological capabilities and reliability based on its extensive delivery record.
